

# KAMICO Instructional Media is here to help with all your HB 4545 needs!

Are you struggling to find ways to comply with the accelerated instruction mandates of House Bill 4545?

KAMICO Instructional Media, Inc. is here to help— just as we have been helping Texas educators with focused, standards-based instruction for the past 30 years.

The Texas legislature enacted House Bill 4545 on June 16, 2021. This legislation has major ramifications for student instruction beginning with the current 2021-2022 school year. KAMICO can provide you with **everything** you need to ensure compliance with HB 4545. We offer unmatched support for your accelerated learning committees as they work to ensure student mastery of TEKS by all students. Whether you are looking to support your certified master, exemplary, or recognized teachers or create a robust supplemental instruction plan, KAMICO can provide you with a variety of rigorous, TEKS-aligned materials to improve student performance. Our program is acclaimed by educators around the state and validated by decades' of scientifically based research.

## What is House Bill 4545?

[HB 4545](#) mandates that any student who did not pass STAAR grades 3-8 or EOC assessments must be provided *accelerated instruction* in the 2021-2022 school year (starting in fall 2021) or subsequent summer of 2022.

## What is "accelerated instruction"?

The goal of accelerated instruction is to identify students who are behind their peers and apply aggressive, targeted instruction to get them caught up quickly.

### There are two options for providing accelerated instruction:

- assign a classroom teacher who is a certified master, exemplary, or recognized teacher, or
- deliver supplemental instruction (e.g., tutoring) before or after school, or embedded in the school day and meeting HB 4545 requirements (e.g., students cannot be removed from recess).

## How can KAMICO help?

We can help your accelerated learning committees as they develop individual educational plans for students who have been selected for accelerated instruction.

KAMICO's [curriculum](#) and [games](#) are *perfect* for either accelerated instruction option. Our products are ideally suited for use by certified master, exemplary, or recognized teachers, as evidenced by the scores of [testimonials](#) and reviews we have received from these expert educators. We can also cover all your needs for supplemental instruction requirements.

## **In what ways can KAMICO help with supplemental instruction?**

The Texas Education Agency (TEA) has outlined several requirements that must be met by supplemental instruction plans. KAMICO products help address every one of these criteria. Here are just a few and a description of how we can support you.

### **According to TEA, supplemental instruction must**

- **deliver targeted TEKS-aligned instruction for the applicable grade level and subject areas**
  - ☑ KAMICO offers Diagnostic Series books in core subject areas for all grades affected by HB 4545. These books contain several practice assessments that spiral through all TEKS assessed on STAAR.
  - ☑ Each question aligns to a specific TEKS identified using a table at the back of the book. This allows educators to pinpoint student needs, provide exposure to a variety of assessment delivery methods, reduce test-taking anxiety, deliver targeted TEKS-specific practice and expose students to multiple facets of the same TEKS.
  - ☑ Each incorrect answer represents a departure from the problem-solving process providing a valuable instructional tool and letting educators further refine their instructional approach.
- **be designed to assist the student in achieving satisfactory performance in the applicable grade level and subject area**
  - ☑ KAMICO has a proven track record across the state of Texas. Where our products have been used, performance has risen. Scientifically based research validates our instructional methodology.
- **be delivered in a 1-on-1 or small-group environment, with no more than 3 students in a small group**
  - ☑ Through our Developmental Series, KAMICO offers hundreds of activities, investigations, games, and puzzles. Each is customizable for individual or small-group settings and each is TEKS-aligned and corresponds to one specific skill assessed on STAAR.
  - ☑ Our Game Gallery provides full-color, rigorous, and highly engaging board games aligned to the TEKS and designed to remind students that learning is fun. There is simply no better way to apply supplemental targeted instruction in small-group settings.
- **utilize effective instructional materials designed for supplemental instruction**
  - ☑ KAMICO has been providing supplemental instructional materials to Texas educators for over 30 years. Our award-winning writers and curriculum specialists understand the needs of educators and students in before-school, after-school, and other nontraditional classroom settings.
- **be provided by an individual with training in aligned instructional materials and under the LEA's oversight**
  - ☑ KAMICO offers outstanding customer support and is a TEA-approved continuing professional education provider. Once you become a KAMICO

customer, we join your team and commit ourselves to ensuring the effective delivery of our content and the success of your students.
