PROVEN TO INCREASE STUDENT ACHIEVEMENT

STAAR CONNECTION™

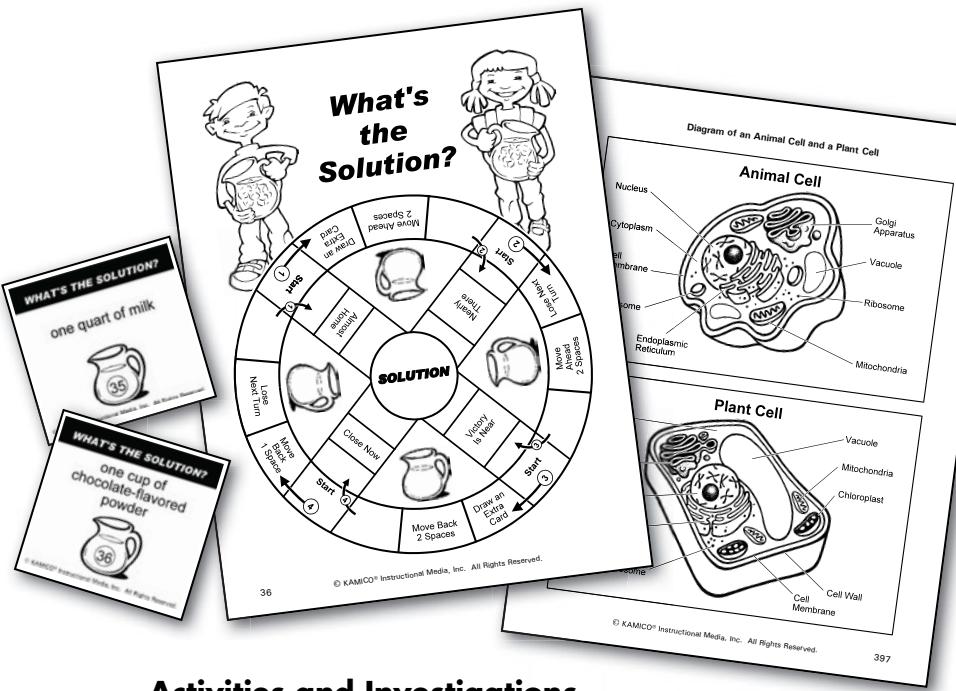

Developmental Series™

Assessments, games, activities, and investigations to develop, reinforce, and enrich TEKS for individual students, partners, small groups, teams, and entire classes

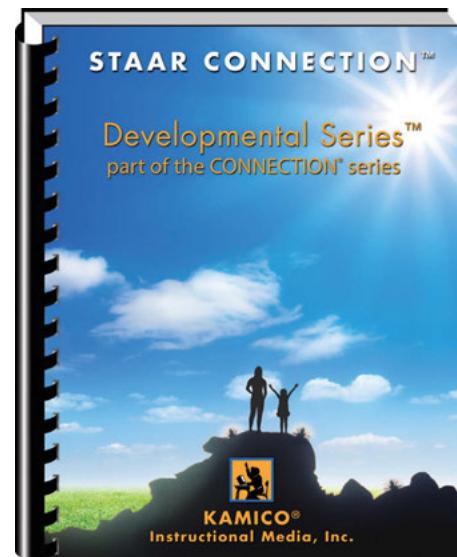

Grades 1, 2, 3, 4, 5, and 8 science

- ❖ 50 - 60 assessments and activities per grade level
- ❖ Each assessment covers a specific TEKS
- ❖ Each game, activity, or investigation reinforces or enriches a specific TEKS
- ❖ 500 - 650 pages per grade level
- ❖ Languages: English and Spanish
- ❖ Validated by scientifically based research
- ❖ Created with rich, meaningful content
- ❖ Develops and extends knowledge of TEKS
- ❖ Contains engaging, customized instruction
- ❖ Adjusts to meet various levels of cognitive demand
- ❖ Filled with enrichment activities to extend skill mastery and expand critical-thinking skills
- ❖ Facilitates peer interaction and communication
- ❖ Decreases student behavior problems
- ❖ Supports differentiated instruction

(Science books revised for streamlined standards)

Name _____ TEKS 3.9B

Identify and describe the flow of energy in a food chain and predict how changes in a food chain affect the ecosystem such as removal of frogs from a pond or bees from a field.

1 Look at the drawing of a pond ecosystem.

Which food chain shows a flow of energy in the pond ecosystem?

A Sun → water lilies → water beetles → sunfish → storks
B storks → largemouth bass → frogs → mosquitoes → algae
C algae → water beetles → sunfish → storks → Sun
D Sun → algae → water lilies → mosquitoes → frogs

Assessments

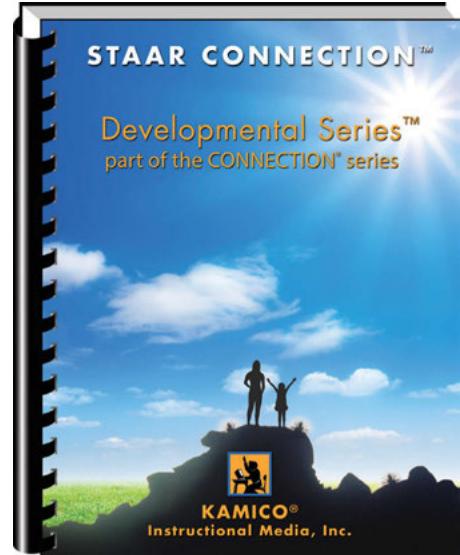

STAAR CONNECTION™

Developmental Series™

Grades 3, 4, 5 Math and Reading

Educators asked for it—we responded. KAMICO student editions now include many activity sheets, student resources, and assessments to ensure mastery of TEKS and success on STAAR. This allows educators to immediately implement KAMICO's scientifically validated program without having to spend valuable time duplicating much of the materials.

- ❖ Teacher editions - 600-800 pages of rich, meaningful content
- ❖ Student editions - 400-600 pages of engaging activities and assessments
- ❖ Each game or activity develops, reinforces, or enriches a specific TEKS or a discrete skill described in a TEKS
- ❖ Activities and enrichments support
 - ~ project-based learning
 - ~ differentiated instruction
- ❖ Content is adjustable to meet varying levels of cognitive demand
- ❖ Enrichment activities extend skill mastery and expand critical-thinking skills
- ❖ Materials facilitate peer interaction and communication, as well as a decrease in student behavior problems

LIVING HISTORY FOR KIDS
The Student Magazine about Living History
Volume IV, Issue 2

The History Lesson of a Lifetime
by Killbright

In those early days, such as the bones of a mastodon and prehistoric bison. Huff ran a store during the Texas Revolution. Later, after the war, he began a newspaper. In 1849, he left Houston. He headed to the newly found California gold fields. He wanted to mine for gold. He wanted to be rich.

As a result, Huff kept a diary. The diary grew to 300,000 words over two books. It tells about the places he visited. He wrote about the people he faced. He also wrote about the people he met. The diary was passed down in Huff's family. In 2005, it was owned by Huff's great-grandson, Jeffry.

— Bill Coates

STAAR CONNECTION™

A POWERFUL, RESEARCH-BASED PROGRAM

Diagnostic Series™

Grades K – 8 and EOC Assessments

Content Areas: Math, Reading, Writing, Social Studies, and Science

- ❖ 15 - 20 formative assessments per grade level and subject area
- ❖ Languages: English and Spanish
- ❖ Covers a mixture of Readiness and Supporting TEKS assessed on STAAR on each assessment
- ❖ Validated by scientifically based research
- ❖ Filled with rich, rigorous content, such as challenging reading selections, media literacy pieces, stimulating writing prompts, and real-world science and math problems
- ❖ Facilitates comprehension and increased retention
- ❖ Allows quick identification of TEKS for which students are in need of remediation
- ❖ Identifies mastery levels
- ❖ Maximizes student achievement
- ❖ Provides information needed to facilitate differentiated instruction

To view samples, visit KAMICO.com and click on Curriculum.

SAMPLES:

7 These are dogs.

These are not dogs.

Look at the pictures below. Which is a picture of a dog?

7 Enzymes are large protein molecules in the bodies of living things that act as catalysts to bring about specific biochemical reactions. The rate of reaction generated by enzymes follows a quadratic trend. The graph shows the reaction rate of an enzyme which vary at different temperatures, follow a quadratic trend. At $t = -44$ degrees Celsius and $t = 100$ degrees Celsius, the reaction rates of a chemical reaction caused by this enzyme are zero.

Which quadratic function defines the pattern of the rates of reaction of this enzyme?

- ▲ $R(t) = -\frac{7}{1,296}t^2 + \frac{49}{162}t - \frac{1,331}{48}$
- $R(t) = \frac{7}{1,296}t^2 - \frac{49}{162}t - \frac{1,925}{81}$
- $R(t) = -\frac{7}{1,296}t^2 + \frac{49}{162}t + \frac{1,025}{81}$
- ♦ $R(t) = -\frac{7}{1,296}t^2 + \frac{49}{162}t - \frac{1,925}{81}$

6 A gear is one of a set of toothed wheels that work together to change the speed, direction, or torque of a power source.

Some gears are parallel to the axis of rotation. These gears are called straight cut gears.

Some gears have teeth that are cut at an angle to the face of the gear so that they are perpendicular to the axis of rotation. These gears are called helical gears.

An industrial designer found the equation of the axis AB to be $x - 3y = 12$. The coordinates of C are $(-2, 5)$. What is the equation of the axis CD?

- F $y = -3x - 1$
- G $y = 3x + 1$
- H $y = -3x + 11$
- J $y = 3x + 11$

STAAR CONNECTION™

Educators Requested – We Created

Comprehensive Benchmarks

(new content combined with questions from Diagnostic Series™)

STAAR-Formatted, TEKS-Aligned Customizable Benchmarks

- ❖ Languages: English and Spanish
- ❖ Grades: K - 8 and EOC
- ❖ Content Areas: Math, Reading, Writing, Science, and Social Studies
- ❖ 28-50 questions per benchmark
- ❖ Comprehensive evaluation of TEKS
- ❖ STAAR-formatted questions
- ❖ Customizable for school districts and/or campuses
- ❖ Free answer keys
- ❖ Validated by scientifically based research

STAAR CONNECTION™

Quick Start Packs

*For educators beginning a new grade level, teaching a new subject, or seeking to maximize STAAR results:
Special Savings on the KAMICO program*

**Diagnostic Series™, Developmental Series™,
Game Gallery®, and CONNECTION® to Literature
included as applicable for Grades K – 8 and EOC**

- ❖ Languages: English and Spanish
 - ❖ Content Areas: Math, Reading, Writing, Science, and Social Studies
 - ❖ 5-10% off the price of standard purchase
 - ❖ Encompasses entire KAMICO program
 - ❖ Provides instruction for individual students, partners, small groups, teams, and entire classes
 - ❖ Supports differentiated instruction, student performance, and positive behavior
 - ❖ Filled with rich, rigorous content
 - ❖ Enhances student mastery and retention of TEKS
 - ❖ Proven to increase student achievement
 - ❖ Develops, reinforces, and extends skills and concepts
 - ❖ Facilitates comprehension and increased retention
 - ❖ Promotes critical thinking and enhanced reasoning
 - ❖ Scientifically validated materials

Education Provider
CPE #501171**

KAMICO® will tailor the professional-development session to meet the needs of your district or school. KAMICO® provides a 6-hour training session for a flat fee of \$1,500. There are no additional charges for travel or other expenses.

Visit www.kamico.com to download a professional development request form, e-mail professionaldevelopment@kamico.com, or call 254.947.7283 to request more information.

Game Gallery®

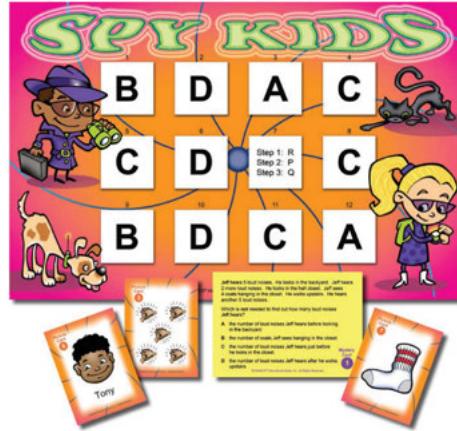

STAAR-Aligned TEKS-Based Games, Activities, and Investigations Content Areas: Math, Reading, Writing, Science, and Social Studies Grades K – 12

- ❖ Languages: English and Spanish
- ❖ Develops, reinforces, and extends student knowledge of TEKS
- ❖ Created for individual students, partners, small groups, teams, and entire classes
- ❖ Supports differentiated instruction, performance, and positive behavior
- ❖ Over 300 titles
- ❖ Includes clear, concise directions
- ❖ Comes ready to play with all parts included—tokens, number cubes, calculators, rulers, etc.
- ❖ Contains colorful, engaging graphics
- ❖ Filled with enrichment activities incorporating critical thinking to extend and enhance reasoning
- ❖ Involves focused TEKS practice
- ❖ Promotes student collaboration and interaction
- ❖ Validated by scientifically based research

Geometry Genius

(8)(1)(A) Mathematical processes. Apply mathematics to problems arising in everyday life, society, and the workplace.

Spy Kids

(1)(1)(B) Mathematical processes.
Use problem-solving models.

Resource Race

(1C) Conserve Natural Resources. Reuse or Recycle Paper, Plastic, and Metal.

board games, visit
KAMICO.com, and click on
Curriculum, Game Gallery.

SPECIAL SAVINGS

Game Packs – one each of all games at a grade level

Game Bundles – one each of all games in a specific content area at a grade level

CONNECTION® to Literature

STAAR-Aligned TEKS-Based Study Guides Based on Popular Children's Literature Grades K – 5

- ❖ Supports vocabulary and spelling development
 - ❖ Assesses reading comprehension, writing composition, and math problem solving
 - ❖ Contains engaging social studies activities, science investigations, and technology applications
 - ❖ Enrichment projects and extensions based on various levels of Bloom's Taxonomy
 - ❖ Develops students into active readers as they gain an appreciation of children's and young adult literature
 - ❖ Creates a positive attitude toward all content areas
 - ❖ Provides instruction for individual students, small groups, and entire classes
 - ❖ Develops, reinforces, and extends skills and concepts
 - ❖ Supports differentiated instruction

**Charlotte's Web
Chapters 1 through 3
Social Studies**

Farming is important to the characters in Charlotte's Web. Both the Zuckermans and Arables have farms where they grow plants and raise animals. Farming provides a way for many people to earn a living. Also, most Americans buy something grown on a farm.

Farming is especially important in Texas. Texas has more farms than any other state. Many farms and twice as many farms as any other state.

cotton, soybeans, corn, sorghum, oats, rice, sugar, peanuts, pecans, and sunflowers are commonly grown in Texas.

Choose five crops grown by a legend with a symbol where each of your five choices in a reference book like a dictionary. Many places, so you will need only grown in relatively small areas.

**Charlotte's Web
Chapters 1 through 3
Math**

Mark the correct answer.

- There were baby pigs born on a pig farm. One pig was 4, and the largest pig was 36. What is the most reasonable total number of pigs?
 - fewer than 10
 - between 10 and 16
 - between 16 and 36
 - more than 36
- Each day the new page is worth 100 points. Record your answer value.
100

**Charlotte's Web
Chapters 1 through 3
Technology**

4. Look at the web. It should show a main idea and some supporting details from chapter 5.

grasshoppers
flies
beetles
crickets
daddy longlegs
butterflies
centipedes
mosquitoes

Which of the following belongs in the bin?
 There are many animals in the bin.
 Charlotte will eat anything carefree.
 Avery likes to catch insects and eat them.
 Wilbur likes to listen to the value.

Complete Metamorphosis Incomplete Metamorphosis

Similarities

Metamorphosis

1. At your computer, open a web browser. Some web browsers are Internet Explorer, Firefox, Chrome, Safari, and Opera. Your teacher can show you how to open a web browser on your computer.

2. Open a search engine. Do this by typing the web address of the search engine in the white space of the address bar. Some search engines websites that you can try are www.google.com, www.yahoo.com, www.ask.com, and www.bing.com. Then, press the Enter key, or click on the Go button with the mouse. Your teacher can help you with this step.

3. You will see a long blank box on the web page. This is called a "search box." In the search box, type "E. B. White."

4. Press the Enter key, or click on the Search button with the mouse. (This button might be labeled with the words "Search" or "Web search," with a magnifying glass, or with some other words or symbol, depending on the search engine you are using.)

5. Now, you will see a list of web pages. Click on one that you think will be helpful in finding information on E. B. White. Use these facts to find two facts about E. B. White. Write these facts in the boxes below.

Item #	Game Title and TEKS	Price(\$)	Qty	Total
GG3MAB	About Bingo 3(4)(B) Number and operations. Round whole numbers to estimate solutions to problems.	10.95		
GG3MAFO	Alien Feast of Adding 3(4)(A) Number and operations. Solve with fluency problems involving addition.	10.95		
GG3MAIT	All in the Family 3(4)(J) Number and operations. Identify related multiplication and division sentences.	10.95		
GG3MCYB	Can You Believe It? 3(4)(B) Number and operations. Round whole numbers.	10.95		
GG3MCA	Class Act 3(1)(B) Mathematical processes. Use a problem-solving model that incorporates analyzing given information, formulating a plan or strategy, determining a solution, justifying the solution, and evaluating the problem-solving process and the reasonableness of the solution.	10.95		
GG3MCC	Count Crackula 3(4)(E) Number and operations. Represent multiplication facts by using a variety of approaches.	10.95		
GG3MEV	Estimation Vacation 3(4)(B) Number and operations. Round whole numbers to a given place value.	10.95		

Game Gallery® Gr 3 Math Games (continued)

Item #	Game Title and TEKS	Price(\$)	Qty	Total
GG3MEAP	Extend a Pair 3(5)(E) Algebraic reasoning. Represent real-world relationships using number pairs in a table.	10.95		
GG3MFFF	Find Freddy's Fractions 3(3)(H) Number and operations. Compare two fractions using symbols, words, objects, and pictorial models.	10.95		
GG3MFA	Fraction Action 3(3)(F) Number and operations. Represent equivalent fractions.	10.95		
GG3MFC	Fractional Concentration 3(3)(A) Number and operations. Represent fractions using pictorial models.	10.95		
GG3MGTK	Get to Know Your National Parks 3(2)(A) Number and operations. Compose and decompose numbers.	10.95		
GG3MGIA	Give It a Second Chance 3(1)(C) Mathematical processes. Select tools and techniques to solve problems.	10.95		
GG3MGT	Good Times 3(4)(K) Number and operations. Solve multiplication problems.	10.95		
GG3MGF	Goofy Fractions 3(3)(C) Number and operations. Explain that a fraction represents the quantity formed by one part of a whole that has been partitioned into equal parts.	10.95		
GG3MIGI	I Guess I'll Go Golfing 3(1)(B) Mathematical processes. Use a problem-solving model that incorporates analyzing given information, formulating a plan or strategy, determining a solution, justifying the solution, and evaluating the problem-solving process and the reasonableness of the solution.	10.95		
GG3MIT	It's Time to Catch a Fish 3(1)(A) Mathematical processes. Apply mathematics to problems arising in everyday life.	10.95		
GG3MMM	Market Math 3(1)(A) Mathematical processes. Apply mathematics to problems arising in everyday life.	10.95		
GG3MOU	Order Up! 3(2)(D) Number and operations. Compare and order whole numbers.	10.95		
GG3MPP	Pattern Playground 3(1)(B) Mathematical processes. Use a problem-solving model that incorporates analyzing given information, formulating a plan or strategy, determining a solution, justifying the solution, and evaluating the problem-solving process and the reasonableness of the solution.	10.95		
GG3MPB	Piggy Bank 3(4)(C) Number and operations. Determine the value of a collection of coins and bills.	10.95		
GG3MRR	Rodeo Roundup! 3(4)(B) Number and operations. Round whole numbers and estimate solutions to problems.	10.95		
GG3MSS	Simon Says 3(1)(B) Mathematical processes. Use a problem-solving model that incorporates analyzing given information, formulating a plan or strategy, determining a solution, justifying the solution, and evaluating the problem-solving process and the reasonableness of the solution.	10.95		
GG3MSIL	Step in Line 3(1)(E) Mathematical processes. Create and use representations to organize, record, and communicate mathematical ideas.	10.95		
GG3MSS2	Super Sentence 3(5)(A), 3(4)(A), 3(4)(K) Number and operations. Create and solve addition, subtraction, multiplication, and division problems.	10.95		
GG3MTAM	Table-A-Mia Make-A-Pizza 3(5)(E) Algebraic reasoning. Represent real-world relationships using number pairs in a table.	10.95		
GG3MTT	Table Twister 3(1)(B) Mathematical processes. Use a problem-solving model that incorporates analyzing given information, formulating a plan or strategy, determining a solution, justifying the solution, and evaluating the problem-solving process and the reasonableness of the solution.	10.95		
GG3MTT2	Time Trials 3(7)(C) Geometry and measurement. Determine the solutions to problems involving addition and subtraction of time intervals in minutes.	10.95		
GG3MTEA	To Estimation and Beyond 3(4)(B) Number and operations. Round whole numbers and estimate solutions to problems.	10.95		
GG3MUCS	U Can Solve Anything 3(1)(A) Mathematical processes. Apply mathematics to problems arising in everyday life.	10.95		
GG3MVR	Video Rewind 3(1)(B) Mathematical processes. Use a problem-solving model that incorporates analyzing given information, formulating a plan or strategy, determining a solution, justifying the solution, and evaluating the problem-solving process and the reasonableness of the solution.	10.95		
GG3MYC	You Can Make a Difference! 3(4)(A) Number and operations. Solve with fluency one-step and two-step subtraction problems.	10.95

We have included both Item Numbers and ISBNs in this catalog to accommodate all of your purchasing needs.

What is the difference between a teacher edition and a student edition?

The teacher edition is the complete book. It includes resources only the teacher needs, like keys, alignments, and instructions. A teacher can buy only one for his or her class and can copy pages as needed for that class.

The student edition is consumable; depending on the grade level and/or subject, it contains activity sheets and assessments.
