STAAR CONNECTION™

On-Site Professional Development

Due to popular demand, KAMICO® is increasing the availability of On-Site Professional Development sessions. Now your staff can be personally trained by curriculum experts in strategies to ensure mastery of TEKS and success on the STAAR.

KAMICO® curriculum experts train on how to

- ❖ identify and understand TEKS assessed by STAAR
- ❖ incorporate TEKS into lesson planning and instruction
- ❖ develop student knowledge of TEKS
- ❖ ensure student retention of mastered TEKS
- ❖ provide enrichment for students who have mastered TEKS
- ❖ develop integrated teaching strategies
- ❖ introduce STAAR features and item formats into curriculum
 - graphic organizers
 - open-ended questions
 - griddable-response questions
- ❖ create instructional calendars
- ❖ disaggregate assessment data by individual student, class, grade, school, and demographic group
- ❖ analyze data
- ❖ make data-driven instructional decisions
- ❖ identify instructional groups
- ❖ customize instruction
- ❖ create and play TEKS-based developmental activities and games

Educators are encouraged to have available their previous year's STAAR item-analysis reports.

KAMICO® will tailor the professional-development session to meet the needs of your district or school. KAMICO® provides a 6-hour training session for a flat fee of \$1500. There are no additional charges for travel, etc.

Complete the workshop registration form, and KAMICO® will reserve a day for your school's customized training.
